

# The FinAlyzer Dashboards

**KPI Dashboard:** Provides crucial information on whether KPI's have been met or missed, if they have breached alert levels, and what that means to the business

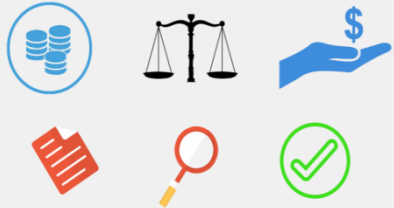

**Executive Dashboard:** Provides a birds eye view on the most important financial parameters & trends, providing easily understandable and actionable insights on the company's financial health

**Profit & Loss Analysis:** Provides an ability to perform a detailed analysis of the profit & loss report by exploring trends, actual vs plan, segment-wise reporting and drill-down for each ledger account

### Balance Sheet Analysis

**Balance Sheet Analysis:** Provides crucial information on whether KPI's have been met or missed, if they have breached alert levels, and what that means to the business

### Cash Flow Analysis

**Cash Flow Analysis:** In-depth analysis of inflows, outflows and net cash-flow for a period, facilitating decision makers to plan in such a way that the business functions smoothly

### Forecast

**Forecast Dashboard:** Forecasts the future, and acts as an early warning mechanism in case problems are predicted to arise (e.g. will the company hit a cash-flow crunch, miss revenue targets, overshoot budgets etc.)
